**Item No.7**

In view of the growing operations of the Company and to augment the fund requirements of the Company, your Company propose to create, offer, issue and allot equity shares, GDRs, ADRs, FCCBs, etc., as stated in the resolution. The proposed resolution would be for approval of issuance of equity shares, FCCBs, GDRs, ADRs, etc. for an amount not exceeding USD 400 Million. The Board recommends the resolution in the best interest of the Company

None of the Directors, Key Managerial Personnel and their relatives is in any way concerned or interested in the resolution.

**Item No.8**

Your Company, in order to enhance its global competitiveness in domestic and international markets, needs to strengthen its financial position by augmenting long term resources from time to time.

The proposed special resolution seeks the approval of the Members to the Board without the need for seeking any further approval from the Members for the proposed Qualified Institutional Placement ("QIP") with the Qualified Institutional Buyers ("QIB") in accordance with the provisions of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009 (as amended from time to time) ("SEBI ICDR Regulations"). Pursuant to the above, the Board may in one or more tranches issue and allot equity shares / fully convertible debentures / partly convertible debentures / non-convertible debentures with warrants / any other securities (other than warrants) which are convertible into or exchangeable with equity shares on such date at such price or prices, at a discount or premium to the price calculated in accordance with Chapter VIII of the SEBI ICDR Regulations as may be determined by the Board but not later than 60 months from the date of allotment (Collectively referred to as "QIP Securities").

The relevant date for the determination of applicable price for the issue of the QIP Securities shall be the date of the meeting in which the Board of the Company decide to open the proposed issue or in case of securities which are convertible into or exchangeable with equity shares at a later date, the date on which the holder of such securities becomes entitled to apply for

the said shares, as the case may be. For reasons aforesaid a resolution is therefore proposed to be passed to give adequate flexibility and discretion to the Board to finalise the terms of issue. The securities issued pursuant to the offering would be listed on the Indian Stock Exchanges.

The securities issued under QIP issue pursuant to offer may, if necessary be secured by way of mortgage/ hypothecation on the Company's assets as may be finalized by the Board of Directors in consultation with the security holders / trustees in favour of security holder/trustees for the holders of said securities. As the documents to be executed between the security holders/ trustees for the holders of the said securities and the Company may contain the power to take over the management of the Company in certain events, enabling approval is also sought under Section 180(1) (a) of the Companies Act, 2013.

Section 62(1)(C) of the Companies Act, 2013 and the Listing Agreement entered with the Stock Exchanges provide, inter alia that where it is proposed to increase the subscribed share capital of the Company by allotment of further shares, such further shares shall be offered to the persons who on the date of the offer are holders of the equity shares of the Company in proportion to the Capital paid up on those shares as of that date unless the Members decide otherwise. The Special Resolution seeks the consent and authorization of the Members to the Board of Directors to make the proposed issue of securities in consultation with the Lead Managers, Legal Advisors and other intermediaries and in the event it is decided to issue Securities convertible into equity shares to issue to the holders of such convertible securities in such manner and such number of equity shares on conversion as may be required to be issued in accordance with the terms of the issue keeping in view the then prevailing market conditions and in accordance with the applicable provisions of rules and regulations or guidelines

The Board recommends the above resolution for your approval in the best interest of the Company.

None of the Directors, Key Managerial Personnel and their relatives is in any way concerned or interested in the resolution.

## Managing Director's review

I Present The Performance Of The Company For The Year Under Review: Revenues Declined By 42.17 Per Cent And Profit After Tax Declined By 10.58 Per Cent.

I Must Assure Our Shareholders That Even As These Numbers Seem Adverse At First Glance, They Are Better Than The Sectoral Average And Stand Testimony To Our Passion To Perform In The Face Of Challenges.

### Overview

The global oil sector reflected a divergent trend during the course of the year under review. During the first half of the financial year, the international price of crude oil strengthened from a starting-of-the-year figure of \$ 66 per barrel to a peak of \$ 74 per barrel. While oil realisations were strengthening, oil-prospecting companies were more interested in engaging in fresh drilling and strengthening their multi-year reserves.

Thereafter, the prospects of a global over-supply began to surface and oil prices declined to a 2018-19 low of \$ 46 per barrel before recovering to close the financial year at \$ 63 per barrel.

Seldom in the space of any one financial year have we seen three distinct short-term price moves, enhancing sectoral uncertainty and volatility. In the downstream oil marketing sector, one of the pre-requisites for funding additional capital expenditure is stability or optimistic outlook, both of which were absent during the last financial year.

This reality affected the sentiment for fresh drilling and prospecting which, in turn, affected rig deployment and utilisation on the one hand and rig-day rates on the other. The result is that the entire oil sector eco-system encountered challenging circumstances where the biggest challenge was to weather the prevailing environment with a minimal impact on competitiveness.

**At Aban, we believe that the most effective strategy for the moment is to be opportunity-ready. While there is no certainty when the sectoral sentiment may turn for the better, there is a premium on the ability to be fully prepared at all times.**

### Aban's positioning

At Aban, we believe that the most prudent strategy in this challenging environment is mastering the defensive: controlling costs, enhancing asset availability and amortising fixed costs more effectively. We believe that in an environment where the prospect of an improvement in rig rates is negligible for the moment, the best strategy is to look within, remove inefficiencies, moderate costs and enhance overall competitiveness.

During the year under review, the Company continued to focus on deploying most of its assets across the foreseeable future with the objective of reducing idling, generating revenues, covering focused costs more effectively and enhancing overall viability.

The effectiveness of our focus became visible as we bagged contracts for rigs Aban III and IV from Oil and Natural Gas Corporation (ONGC), India's largest hydrocarbon exploration company. These rigs will be deployed for a period of three years starting from the third quarter of the current financial year, enhancing our revenue visibility from these assets.

Besides, this focus on enhancing revenue visibility was also reflected in the deployment of Deep Driller 8 (Aban Singapore) for two years starting October 2018. Since the rig has already been put on stream for the client, the revenue inflows have commenced.

Aban 8 was deployed for Petrofac, a prominent oil major of Malaysia. The contract for three firm wells and two optional wells was extended to the first quarter of 2019-20.

I am pleased to report that Deep Driller 4 was operating for Vedanta Limited until April 2018 following which it was enlisted for refurbishment. The Company entered into a contract with Carigalli PTTEP Operating Company (CPOC) for deployment for 18 months starting May 2019, with the possibility of time-based extensions.

### Opportunity-ready

At Aban, we believe that the most effective strategy for the moment is to be opportunity-ready. While there is no certainty when the sectoral sentiment may turn for the better, there is a premium on the ability to be fully prepared at all times.

At our company, we believe that opportunity-readiness will be derived from our operating assets being maintained through the downturn so that they are deployment-ready whenever needed. We also believe that we need to protect our most precious capital, knowledge, through strengthening people-retention during these challenging times, reinforced through a culture of training and continuous skilling. We have faith that by investing in safety practices, we will strengthen our recall as a preferred service provider by companies at a time when every day of drilling is critical to customer profitability. We are convinced that companies that survive through this downturn and are the last standing will be the first off the blocks when sectoral conditions revive.

### Guarded optimism

While it would be too early to ascertain which way the oil market is headed, the optimism comes from the fact that oil prices rebounded and steadied in the high sixties level. The Company is seeing an incidence where more enquiries are being converted into contracts. While rig rentals are steady at \$ 50-70 per barrel compared to peak levels that were considerably higher, the objective is to maximise rig deployment at these rates. We believe an excess of rig scrapping during this downturn over rig introduction will steady the market across the foreseeable future. A tipping point could then result in a larger demand for rigs than available supply, strengthening realisations. As one of the larger global rig owning companies with a wide portfolio and relatively young assets, we believe we are attractively placed to capitalise on the next upturn.

### Our priorities

At Aban, our priority is to optimise the capacity utilisation of our assets on the one hand and reduce debt or service interest payments on the other. We believe that a combination of the two will reduce the size of our Balance Sheet, strengthen our any-market competitiveness and reinforce business sustainability.

**Reji Abraham**  
Managing Director

### Experience

The Company has weathered a number of market cycles, strengthening its business de-risking and any-market competitiveness

### Uptime

The Company's human capital is reflected in modern or refurbished assets that are able to operate at a high uptime, strengthening client confidence and productivity.

### New generation

The Company possesses a professional fleet that enables it to counter obsolescence. The average age of nine jack-ups stood at ten-and-a-half years as of 31st March 2019, an advantage in a sector where operating assets are much older.

### Qualified professionals

The Company employs qualified professionals with proven capabilities across different assets, waters and client needs.

### High standard

The Company's rigs are marked by a high standard of safety and eco-friendliness, making them eligible for deployment across the most demanding E&P companies.

### Scale

The Company is among the dozen largest global offshore service providers and the largest in India, enhancing sectoral visibility and access to attractive deal flows.

### Service-oriented

The Aban fleet has worked with reputed global clients and developed relationships with major players, generating repeat engagements.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Global economic review

The year 2018-19 was marked by suppressed economic activity in the early quarters in major advanced economies as a result of the negative effects of the trade measures implemented or approved between April and September 2018, failure of Brexit negotiations, tightened financial conditions, geopolitical tensions and higher oil import bills. These developments occurred against a backdrop of weakening market sentiments, policy uncertainties and concerns about China's outlook.

Global trade growth slowed to level below the 2017 average to finish at ~3.7%, a 10 bps fall from the previous year. Aggregate growth in emerging markets and developing economies stabilised in H1 of FY2018. Emerging Asian economies continued to register strong growth, supported by a demand pickup in India after a four-year interval. Even as trade activities in China moderated during Q2 in response to regulatory tightening of the property sector and non-banking financial intermediation, higher oil prices lifted growth-rate among fuel-exporting economies in sub-Saharan Africa and the Middle East.

### Outlook

Global growth is expected to remain at 3% in 2019, as the decline in the growth rates in advanced economies continue. (Source: World Economic Outlook)

(Source: CSO, Fitch Ratings, Economic Times, Business Standard, IBEF)

### Indian economic overview

India emerged as the sixth-largest economy and retained its position as the fastest-growing trillion-dollar economy. However, after growing 7.2% in 2017-18, the Indian economy was expected to grow at 6.8% in 2018-19 as per the second advanced estimates of the Central Statistics Office released in February 2019, which did not materialise.

The principal developments during the year under review included a sustained increase in per capita income, decline in national inflation, steadying interest rates, and a weakened consumer sentiment starting from the second half of the financial year. The weaker sentiment was on account of a large non-banking financial company announcing its inability to address liabilities. This affected credit expansion, financial markets and consumer sentiment, which resulted in a slower GDP growth of 5.8% in the fourth quarter of the year under review.

In 2018, the country attracted more foreign inflows than China, - ~US\$ 38 billion > China's US\$ 32 billion. India witnessed a 23-notch jump to a record 77th position in the World Bank's latest report on the ease of doing business that captured the performance of 190 countries. The commencement of the US-China trade war opened a new opportunity for India, particularly in the agro sector. Inflation (including food and energy prices) was pegged at 2.6% on an annual basis, one of the lowest in years and well below the Reserve Bank of India's medium-term target of 4%. The rupee rebounded after touching a low of Rs. 74.45 to a dollar to close the financial year at Rs. 69.44. During the fiscal under review, the Indian Government continued to invest deeper in digitisation, renewable energy capacity generation and infrastructure building.

### Key government initiatives

- Bank recapitalisation scheme: The Indian Government announced a capital infusion of Rs. 41,000 crore through recapitalisation of bonds in FY2018-19.

- Expanding infrastructure: The Government of India invested Rs. 1.52 trillion to construct 6,460 kilometres of roads in 2018. Its expenditure of

Rs. 5.97 trillion (US\$89.7 billion) towards infrastructural development for 2018-19 is expected to strengthen the national economy.

- Increasing MSPs: The Indian Government fixed MSPs of 22 mandated kharif and rabi crops and FRP for sugarcane. The Indian Government committed to provide a 50% return over the cost of production for all mandated crops, strengthening the rural economy.

- Budgetary allocation: India's defence budget is projected to surpass Rs. 300,000 crore (US\$ 42.19 billion) in 2019-20 for the first time ever.

- The Insolvency and Bankruptcy code (Amendment), Ordinance 2018: Passed in June 2018, the ordinance provides significant relief to home-buyers by recognising their status as financial creditors. The major beneficiary comprised MSMEs, empowering the Indian Government to provide them a special dispensation under the code.

- Pradhan Mantri Kisan Samman Nidhi: In February 2019, the Indian Government announced the Pradhan Mantri Kisan Samman Nidhi, a scheme promising an annual assured income of Rs. 6,000 (US\$84.5) for any farmer owning ≤2 hectares of farmland. The budget for fiscal year 2020 allocated Rs. 75,000 crore for the scheme, benefiting ~120 million land-owning farmer households.

- Direct Benefit Transfer: The Direct Benefit Transfer initiative re-engineered the cash disbursement process in welfare schemes through simpler and faster flow of information/funds to ensure accurate targeting of beneficiaries, de-duplication and reduction of fraud. In 2018-19 alone, this scheme is estimated to have transferred >Rs.3,14,465 crore and the gains to have accrued since scheme implementation estimated at more than Rs.120,000 crore.

### Global economic growth over six years

Year	2015	2016	2017	2018	2019 (P)	2020 (P)
Real GDP (%) growth	3.2	3.1	3.8	3.6	3.3	3.6

[Source: World Economic Outlook, January 2019] E: Estimated; P: Projected

### Outlook

Assuming no major global and domestic political shocks, India's markets are expected to perform better due to projected earnings revival in 2019. Revenue growth for corporate India is strengthening across the previous quarters. The growth of India's manufacturing sector is expected to accelerate to 8.3% this fiscal, up from 5.7% in 2017-18. This acceleration reflects a rebound from transitory shocks (the currency exchange initiative and implementation of the GST), with strengthening investment and robust private consumption. The fiscal deficit for 2019-20 is pegged at 3.4% with a target of 3% by the 2020-21. India is expected to grow at 6.6% in FY2019-20. ## Global crude oil sector overview

For the first time since 1973, US became the largest producer of crude oil in 2018, riding on the back of the shale revolution that has reshaped the global energy landscape. American oil output more than doubled over the decade, replacing Saudi Arabia and Russia and emerging as the leading global oil producer. Oil prices were volatile in 2018 ranging from as high as US\$ 80 per barrel to as low as US\$ 50 per barrel.

Oil prices averaged US\$ 68 per barrel in 2018, slightly lower than the June forecasts but compared to 2017, ~30% higher when compared with that of 2017. While robust global oil consumption contributed to this increase, supply-side factors were the main drivers of price movements throughout the year. A continuing decline in production in Venezuela and market concerns about the impact of US sanctions on Iran contributed to rising crude oil prices, which peaked at US\$ 80 per barrel in early October 2018. However, realisations declined sharply in November 2018 after the US announced temporary waivers to the Iran sanctions for eight countries, including China and India. The decline in prices also reflected the continued rapid growth in oil production in the US. (Source: CNN, IEA, Bloomberg, World Bank, Economic Times)

## Contracted utilisation of marketed rig fleet

	Mar-19	Feb-19	Mar-18	Change vs year ago
Drillship	78.3	73.7	71.6	6.7

Jackup	77.0	76.3	71.5	5.5
Total	77.7	76.0	72.9	4.8

(Source: IHS Markit)

## Demand-supply dynamics

Global oil demand is estimated to be growing by 1.4 million barrels per day, catalysed by a robust global economic growth of 3.7%. Growth is projected to stay around ~3.7% in 2019 as a result of the weak outlook in some key markets and the recent trade measures undertaken by the US.

Growth in crude oil outside the OPEC members stood at ~1.8 million barrels per day in 2019, increasing from 1.6 million barrels per day in 2018. Production of crude oil is now expected to be 30.7 million barrels per day, following an agreement between Russia and non-OPEC producers such as Oman and Kazakhstan. US sanctions on Iran and Venezuela choked supply, creating disruptions for refineries, but without a dramatic increase in oil prices. (Source: CSIS, Hindu Business Line)

## Outlook

The outlook in terms of supply is uncertain and depends to a large extent on the production decisions taken by the OPEC and non-OPEC members. While these nations agreed to cut output by 1.2 million barrels per day for six months starting January 2019, this may prove insufficient to reduce the oversupply of oil.

Meanwhile, crude oil output in the US is expected to rise by a further 1 million barrels per day in 2019, with capacity constraints envisioned to ease in the second half of the year as new pipelines start generating supply. As a result, the global price of oil is expected

to stay around US\$ 67 per barrel between 2019 and 2021. (Source: IEA, Bloomberg, World Bank, Economic Times)

## Indian crude oil generation industry overview

India is the world's third-largest consumer of crude oil, only behind the US and China. India's average annual rate of demand has been rising at 5.58%, whereas average annual imports have been rising at 11%, making India the world's second-fastest growing market for crude oil. In 2018, India's crude oil consumption stood at ~5.09 million barrels per day, imports accounting for 86% of the demand (4.38 million barrels per day). India accounted for 15% (245,000 barrels a day) of the world's annual growth in the demand for oil in 2018, while it significantly increased its oil import from Iran on the back of easy payment terms and oil cargo insurance. (Source: Oil Price)

## Outlook

India's crude oil demand is projected to grow at the same rate in 2019 as it did in 2018 (15%). Crude oil consumption in India stood at ~5.09 million barrels per day. This is projected to rise to 5.8 million barrels per day by 2040. With the Indian Government strongly emphasising on an ambitious infrastructural development plan and taking a demand-based rather than a tax-based approach to logistics, this demand is expected to increase significantly. ## Global drilling and offshore rigs industry overview

The global rig count was pegged at 2213 during March 2019, up by 1.6%, from 2179 in March 2018. The global offshore drilling market accounted for US\$ 79.53 billion in 2017 and is expected to reach US\$ 152.47 billion by 2026, growing at a CAGR of 7.5% owing to the increasing global demand for oil and gas and increasing investment in the sector.

The world's five largest offshore oil-producing countries are USA, Russia, Saudi Arabia, Iraq and Iran, in that order. India's offshore rig count stood at 38 in January 2019, highlighting a ~5.56% y-o-y growth. (Source: Business Wire, EIA, FIPI, Offshore Technology)

## Opportunities

- Major rig service providers could benefit when rentals revive.
- Significant increase in the sale of automobiles could drive the demand for oil.
- Increasing focus on infrastructure could catalyse oil demand.

## Threats

- An oversupply of rigs coupled with the volatile global oil prices resulted in a reduction in capital expenditure, shrinking contracts from medium-term to short-term.
- With drilling opportunities decreasing, rig rental rates have declined.
- The operating capacities of key global players are under threat with product specifications being tightened by strict environmental legislation.

## Three reasons why oil prices may stabilise

**OPEC's supply cut:** Crude prices strengthened by almost a third since the start of 2019, mostly due to supply cuts led by the Organisation of the Petroleum Exporting Countries (OPEC). OPEC's crude oil output declined from a mid-2018 peak of 32.8 million barrels per day to 30.7 million barrels per day in February 2019.

**US sanctions on Iran:** Iranian exports declined over the course of the last year due to the sanctions imposed by the United States. The United States aims to cut Iran's crude exports by ~20% to below 1 million barrels per day, which could stabilise the demand-supply mechanisms and oil prices.

**Crisis in Venezuela:** Venezuela is suffering from political and economic turmoil, catalysed by the US sanctions imposed against state-owned energy firm PDVSA. The South American nation, possessing the world's biggest oil reserves, has seen output fall ~40 percent since 2015 to 1.5 million barrels a day.

### Why oil has a reasonable long-term future

**Road transportation sector:** The road transportation sector is the biggest contributor to oil demand. This sector represented ~45% of global demand with 43 million barrels per day in 2016 and is projected to show significant growth in the future to reach 48.4 million barrels per day by 2040. Demand for one out of every three new barrels between 2016 and 2040 is expected to come from the road transportation sector.

**Petrochemicals sector:** Significant growth is also expected from the petrochemicals sector where demand is anticipated to increase by 3.9 million barrels per day by 2040. The sectoral demand is projected to grow at a higher rate of ~1.1% per annum than the overall projected growth of ~0.6% per annum.

**Iron, steel, glass and cement industry:** This is the third biggest sector in terms of demand, with a total of 12.5 million barrels per day in 2016 and is projected to increase by 1.2 million barrels per day by 2040.

**Residential, commercial and agricultural sector:** Demand from these sectors totalled 10.5 million barrels per day in 2016 and is projected to grow by 1.7 million barrels per day by 2040, corresponding to an average growth rate of ~0.6% per annum. Growth has been partially curtailed because of the substitution away from oil to natural gas and alternative fuels.

**Aviation sector:** Aviation is the fastest growing sector catalysed by the growing middle-class, especially in developing countries coupled with the increasing penetration of low-cost carriers. Demand from this sector is projected to increase by 2.9 million barrels per day to reach 8.9 million barrels per day by 2040, compared to 6 million barrels per day in 2016. (Source: OPEC)

### Operational performance

The Company generated revenues worth Rs. 8482.66 million compared to the previous year's revenue of Rs.14668.60 million. At the close of FY2018-19, the Company's rigs were operating under a balanced mix of long-term and short-term contracts. The Company's EBITDA declined from Rs. 6508.44 million during FY2017-18 to Rs.1088.65 million during FY2018-19. The Company reported a net loss of Rs. 53273.14 million as on 31st March 2019.

The following are the significant changes in key financial ratios of the company for the F.Y.2018-19 as compared to F.Y.2017-18

## 12. Explanation by the Board on every qualification, reservation or adverse remark or disclaimer made –

- a) By the Auditor in his report – In respect of the Qualification and disclaimer of opinion made by the auditors in their audit report, The management is in discussion with the lenders of the wholly owned foreign subsidiary to conclude on any re-negotiation, obtain replacement financing or raise funds through any fund raising exercises or any such proposal with the lenders as on the date of this report. Considering the long-term nature of investments and in view of the efforts of the Company to turnaround the position of the operating subsidiaries and raise funds through fund raising exercise and in the absence of the fair value assessment of the investments by an external expert, the management is not in position to assess the impact on the carrying cost of the investments in the wholly owned foreign subsidiary also the management believes that the use of the going concern assumption in the preparation of the financial statements for the financial year ended 31st March 2019 is still appropriate. The Management believes that there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due, as on-going discussions with lenders for re-negotiation, obtain replacement financing or through

any fund raising exercise or any such proposal can be concluded. In view of the foregoing the impact of the disclaimer of opinion cannot be ascertained.

## INDEPENDENT AUDITORS' REPORT

To the Members of

### **ABAN OFFSHORE LIMITED**

#### **Report on the Audit Of Ind AS Standalone Financial Statements**

#### **Qualified Opinion**

We have audited the accompanying Ind AS Standalone Financial Statements of ABAN OFFSHORE LIMITED ("the company"), which comprise the Balance Sheet as at 31st March, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of changes in equity for the year then ended and notes to financial statements including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the "Basis for Qualified Opinion" section of our report, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of "the Company" as at March 31, 2019, the Loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Basis for Qualified Opinion**

We draw attention to Note no 4(b) to Standalone Ind AS financial statements in respect of investments of Rs.35,317.32 million in wholly owned foreign subsidiary which along with its downstream subsidiary companies that have significant accumulated losses as at 31st March 2019. In the absence of any fair valuation assessment of such investments, we are unable to comment upon the carrying value of these investments and the consequential impact, if any, on the accompanying standalone financial statements for the year ended 31st March 2019.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of "the Company" in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the standalone financial statements.

#### **Emphasis of matter**

- (a) We draw attention to Note No 8(a) to Standalone Ind AS financial statements; "the Company" has defaulted in repayment of installments and payment of interest on term loans from banks for an amount of Rs.5495.97 million. The Banks have recalled the entire loan outstanding including interest. As such, "the Company" has re-classified these dues to banks from Non-current Liabilities to Current Liabilities
- (b) We draw attention to Note No 31 to Standalone Ind AS financial statements; The Company has given corporate guarantees to banks and customers on behalf of subsidiaries of company's wholly owned foreign subsidiary amounting to Rs.7430.08 million.

Our opinion is not modified in respect of the above matters.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report

- i. Valuation and Impairment of Property, Plant and equipment: Refer note (19) to the Ind AS Standalone Financial statements

An impairment charge of Rs 198.69 million has been recognized for the year 2018-19 in respect of Jack up rigs as the carrying amounts of such assets exceeded its estimated recoverable value in use which is mainly due to slump in the oil and gas industry

#### **How our audit addressed the key audit matter**

Our procedures included, but were not limited to the following:

- Calculation of impairment has been done by management and not by external expert agency.
  - Obtained an understanding of management's process, evaluated design and tested operating effectiveness of control's around identification of indicators of impairment under Ind AS
  - Assessed the appropriateness of methodology and valuation model used by the management to estimate the recoverable value of assets
  - Assessed the reasonableness of assumptions relating to revenue growth rate, gross margins, discount rates etc., based on historical results, current developments and future plans of business estimated by management
- ii. Evaluation of uncertain tax positions:

The company has material uncertain tax positions including matters under dispute as disclosed under Contingent Liabilities (Note no:31), which involves significant judgement to determine the possible outcome of these disputes.

#### **How our audit addressed the key audit matter**

We have obtained from the management the details of the present status of completed/pending disputes, and taken into consideration the effect of these in respect of uncertain tax provisions to evaluate the uncertainties as at the year end.

#### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of "the Act" with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of "the Act". This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level

of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to two of its directors during the year is in excess of the remuneration payable as per provisions of section 197 of "the Act"- Refer to note 30 to the Standalone financial statements.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
  - ii. The Company does not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

**ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT**

**(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of ABAN OFFSHORE LIMITED of even date)**

**Report on the Internal Financial Controls over Financial Reporting under Clause**

(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of ABAN OFFSHORE LIMITED (“the Company”) as of March 31, 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance

Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Notes to IND AS Financial Statements for the year ended 31st March 2019**

---

**1. Corporate Information**

Aban Offshore Limited (AOL) (the Company) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two stock exchanges in India. The company is engaged in the business of providing offshore drilling and production services to companies engaged in exploration, development and production of oil and gas both in domestic and international markets. The company is also engaged in the ownership and operation of wind turbines for generation of wind power in India.

**2. Basis of preparation**

The financial statements have been prepared in accordance with IFRS converged Indian Accounting Standards (IndAS) as issued by the Ministry of Corporate Affairs (MCA).

All the assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of business operations, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

**2.1 Summary of significant accounting policies****1. Use of estimates**

Preparation of these financial statements in accordance with IndAS requires management to make judgements on the basis of certain estimates and assumptions. In addition, the applications of accounting policies require management judgment. Estimates are based on the management's view on past events and future development and strategies. Management reviews the estimates and assumptions on a continuous basis, by reference to past experiences and other factors that can reasonably be used to assess the book values of assets and liabilities.

The accounting policies which have the most significant effect on the figures disclosed in the financial statements are mentioned below and these should be read in conjunction with the disclosure of the significant IndAS accounting policies provided below:

**i. Impairment testing**

Company's management reviews regularly, and at each reporting date, whether there is any indication of impairment in respect of Goodwill. Goodwill is tested annually for impairment, even if there is no indication of impairment.

**ii. Useful life of Property, Plant and Equipment**

The assessment of the useful life of each asset by considering the historical experience and expectations regarding future operations and expected usage, estimated technical obsolescence, residual value, physical wear and tear and the operating environment in which the asset is located needs significant judgement by the management.

**iii. Fair Value**

Certain financial instruments, such as investments in equity securities, derivative financial instruments and certain elements of borrowings, are carried in the financial statements at fair value, with changes in fair value reflected in the income statements. Fair values are estimated by reference to published price quotations or by using other valuation techniques that may include inputs that are not based on observable market data, such as discounted cash flows analysis.

**2. Presentation of true and fair view**

These financial Statements have been prepared by applying IndAS principles and necessary disclosures have been made which present a true and fair view of the financial position, financial performance and cash flows of the Company.

**3. Going concern**

These financial statements have been prepared on a going concern basis and it is assumed that the company will continue in operation in the foreseeable future and neither there is an intention nor need to materially curtail the scale of operations.

**4. Accrual basis**

These financial statements, except for cash flow information, have been prepared using the accrual basis of accounting

**5. Materiality**

Each material class of similar items has been presented separately in these Financial Statements.

**6. Basis of Measurement**

These financial statements have been prepared on a historical cost convention and on an accrual basis, except for certain properties and financial instruments that have been measured at fair values or revalued amounts as required by the relevant IndAS.

**7. Offsetting**

In preparation of these Financial Statements, the Company has not offset assets and liabilities or income and expenses, unless required or permitted by Ind AS.

**8. Investment in Associates**

An associate is an entity in which the investor has significant influence, but which is neither a subsidiary nor a joint venture of the investor. Interests in Associates are accounted in these Consolidated Financial Statements using the equity method of accounting in accordance with IndAS 28 (Investments in associates and joint venture).

**9. Functional and Presentation Currency**

IndAS 21 (The effects of changes in foreign exchange rates) requires that functional currency and presentation currency be determined. Functional currency is the currency of the primary economic environment in which the entity operates. Presentation currency is the currency in which the financial statements are presented.

These financial statements are presented in Indian Rupee, which is the functional currency and presentation currency of the Company. All foreign currency transactions are expressed in the functional currency using the exchange rate at the transaction date.

Foreign currency balances representing cash or amounts to be received or paid in cash (monetary items) are retranslated at the end of the year using the exchange rate on that date. Exchange differences on such monetary items are recognized as income or expense for the year.

Non-monetary balances that are not remeasured at fair value and are denominated in a foreign currency are expressed in the functional currency using the exchange rate at the transaction date. Where a non-monetary item is remeasured at fair value in the financial statements, the exchange rate at the date when fair value was determined is used.

**10. Property, plant and equipment**

Property, plant and equipment (PPE) is recognized when the cost of an asset can be reliably measured and it is probable that the entity will obtain future economic benefits from the asset.

PPE is measured initially at cost. Cost includes the fair value of the consideration given to acquire the asset (net of discounts and rebates) and any directly attributable cost of bringing the asset to working condition for its intended use (inclusive of import duties and non-refundable purchase taxes).

In the first year of transition to IndAS, the various items of PPE have been valued as per their 'deemed cost' in accordance with IndAS 101 (First time adoption of Indian accounting standards).

The company has chosen the deemed cost exception provided in Ind AS 101. Accordingly, it has partly revalued its property, plant and equipment, and partly recalculated carrying values by applying Ind AS guidance from the date of acquisition of such assets.

The cost of a major inspection or overhaul of an item occurring at regular intervals over the useful life of the item is capitalised to the extent that it meets the recognition criteria of an asset. The carrying amounts of the parts replaced are derecognized.

**11. Depreciation on Property, plant and equipment(PPE)**

The depreciable amount of PPE (being the gross carrying value less the estimated residual value) is depreciated on a systematic basis over its remaining useful life. Subsequent expenditure relating to an item of PPE is capitalized if it meets the recognition criteria.

PPE may comprise parts with different useful lives. Depreciation is calculated based on each individual part's life subject to the life of the main asset. In case of replacement of one part, the new part is capitalized to the extent that it meets the recognition criteria of an

**Notes to IND AS Financial Statements for the year ended 31st March 2019**

---

asset, and the carrying amount of the parts replaced is derecognized.

Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful life of the assets as under-

<b>Fixed Assets</b>	<b>Useful Life</b>
Buildings	60 years
Drilling Rigs	30or 39 years
Drillship	25 years
Computers	3 years
Windmills	22 years
Furniture and fixtures	10 years
Motor Vehicles	8 years

As on transition, based on the technical evaluation, the estimated useful lives of some of the rigs have been revised from 30 years to 39 years.

**12. Borrowings costs**

Borrowing costs are interest and other costs that an entity incurs in connection with the borrowing of funds. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of that asset. Other borrowing costs are recognized as an expense.

Borrowing costs include interest expense, if any, calculated using the effective interest method, finance charges, if any, in respect of finance leases and exchange differences, if any, arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

**13. Impairment of Property, plant and equipment**

An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss is recognized immediately in profit or loss, unless the asset is carried at revalued amount. Any impairment loss of a revalued asset shall be treated as a revaluation decrease.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

An impairment loss recognized in prior periods for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized.

**14. Investments**

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non-current investments.

Quoted Investments are recognized and measured at fair value.

**15. Inventories**

The Company determines the cost for items that are not interchangeable or that have been segregated for specific contracts on an individual-item basis as per IndAS 2, 'Inventories'. The cost of other inventory items

used is assigned by using either the first-in, first-out (FIFO) or weighted average cost formula.

The Company uses the same cost formula for all inventories of similar nature and use. The cost formula used is applied on a consistent basis from period to period.

Inventories are initially recognized at the lower of cost and net realisable value (NRV). Cost of inventories includes import duties, non-refundable taxes, transport and handling costs and any other directly attributable costs, less trade discounts, rebates and similar items. Costs such as abnormal amount of wasted materials, storage costs, administrative costs and selling costs are excluded from the cost

of inventories. NRV is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated selling expenses.

**16. Revenue recognition**

Revenue is recognized when a customer obtains control of goods or services. A customer obtains control when it has the ability to direct the use of and obtain the benefits from the goods or services.

For this, the company first determines whether control is transferred over time. If the answer to this question is negative, only then revenue is recognized at a point in time, or else it is recognized over time.

The company recognizes revenue to depict the transfer of goods or services to customers at an amount expected to be received in exchange for those goods or services.

Income from drilling services is recognized as earned, based on contractual daily rates billed on monthly basis. Mobilization / demobilization fees received, if any, is recognized as earned in the year of mobilization/demobilization.

Income from wind power generation is recognized based on the number of units of power generated every month at contracted rates.

Interest income is recognized on time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

Dividend income is recognized when the company's right to receive dividend is established by the reporting date.

**17. Retirement and other employee benefits**

Employee benefits are all forms of consideration given or promised by the company in exchange for services rendered by its employees. These benefits include salary-related benefits (such as wages, profit-sharing,

bonuses and compensated absences, such as paid holiday and long-service leave), termination benefits (such as severance and redundancy pay) and postemployment benefits (such as retirement benefit plans).

**Defined contribution plans**

The cost of defined contribution plans is the contribution payable by the employer for that accounting period.

**Defined benefit plans**

Accounting for defined benefit plans is based on actuarial assumptions and different valuation methods to measure the balance sheet obligation and the expense.

Contribution to Provident Fund which is a defined contribution retirement plan is made monthly at a predetermined rate to the Provident Fund Authorities and is debited to the Statement of Profit and Loss on accrual basis.

Contribution to Superannuation Scheme / National Pension Scheme (NPS), which is defined contribution retirement plan, is made annually at predetermined rate to Insurance Companies / Pension Funds which administer the fund and debited to the Statement of Profit and Loss

Where defined benefit plans are funded, the plan assets are measured at fair value. At each balance sheet date, the plan assets and the defined benefit obligations are re-measured. The income statement reflects the change in the surplus or deficit, except for contributions made to the plan and benefits paid by the plan, along with business combinations and re-measurement gains and losses.

Re-measurement gains and losses comprise actuarial gains and losses, return on plan assets (comprise amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability or asset). Re-measurements are recognized in other comprehensive income.

The amount of pension expense to be recognized in profit or loss is comprised of the following individual components, unless they are required or permitted to be included in the costs of an asset:

- Service costs (present value of the benefits earned by active employees)
- Net interest costs (unwinding of the discount on the defined benefit obligations and a theoretical return on plan assets)

**Notes to IND AS Financial Statements for the year ended 31st March 2019**

---

The company makes annual contribution to Gratuity Funds administered by Insurance Companies, which is considered as defined benefit plan. The present value of the defined benefit is measured using the 'Projected Unit Credit method' with actuarial valuation being carried out at each Balance Sheet date by an independent valuer. Actuarial gain and losses are immediately recognized in the Statement of Profit and Loss. Amount of contribution, computed by the insurers is paid by the company and charged to Statement of Profit and Loss. No additional liability is anticipated under the scheme administered by the Insurance Companies.

The Company makes provision for leave encashment based on actuarial valuation carried out by an independent actuary at the Balance Sheet date.

**18. Taxes on income**

Current tax expense is based on the taxable and deductible amounts to be used for the computation of the taxable income for the current year. A liability is recognized in the balance sheet in respect of current tax expense for the current and prior periods to the extent unpaid. An asset is recognized if current tax has been overpaid.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided in full for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, except when the temporary difference arises from the following:

- Initial recognition of goodwill (for deferred tax liabilities only)
- Initial recognition of an asset or liability in a transaction which is not a business combination and which affects neither accounting profit nor taxable profit
- Investments in subsidiaries, branches, associates and joint ventures, but only when certain criteria apply

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date.

A deferred tax asset is recognized for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

Current and deferred tax is recognized in profit or loss for the period, unless the tax arises from a business combination or a transaction or event that is recognized outside profit or loss, either in other comprehensive income or directly in equity in the same or different period.

**19. Derivative financial instruments and hedge accounting****Initial recognition and subsequent measurement**

Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognized in other comprehensive income and later reclassified to profit or loss when the hedge item affects profit or loss.

For the purpose of hedge accounting, hedges are classified as:

Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment.

Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment.

Hedges of a net investment in a foreign operation

The company does not have any derivatives instruments during the period April 1, 2018 to March 31, 2019.

**20. Segment reporting**

**Identification of segments**

The Company's operating businesses are organized and managed separately according to the nature of services provided with each segment representing strategic business unit that offers different services. The Company is engaged primarily in the business of offshore drilling services. The wind energy division of the Company does not meet the quantitative threshold as per IND AS 108. Accordingly there is no requirement of segment reporting as per the said Accounting Standard.

**21. Earnings per share**

Basic EPS is calculated by dividing the profit or loss for the period attributable to the equity holders of the parent company by the weighted average number of ordinary shares outstanding (including adjustments for bonus and rights issues).

Diluted EPS is calculated by adjusting the profit or loss and the weighted average number of ordinary shares by taking into account the conversion of any dilutive potential ordinary shares.

Basic and diluted EPS are presented in the statement of profit and loss for each class of ordinary shares in accordance with IndAS 33 (Earning per share).

**22. Provisions, contingent liabilities and contingent assets**

The Company recognizes a provision when:

- There is a present obligation to transfer economic benefits as a result of past events;
- it is probable (more likely than not) that such a transfer will be required to settle the obligation;
- and a reliable estimate of the amount of the obligation can be made.

The amount recognized as a provision is the best estimate of the expenditure required to settle the obligation at the balance sheet date, measured at the expected cash flows discounted for the time value of money. Provisions are not recognized for future operating losses.

An obligation and any anticipated recovery are presented separately as a liability and an asset respectively; however, an asset is recognized only if it is virtually certain that settlement of the obligation will result in a reimbursement, and the amount recognized for the reimbursement does not exceed the amount of the provision. The amount of any expected reimbursement is disclosed. Net presentation is done only in the income statement.

Management performs an exercise at each balance sheet date to identify the best estimate of the expenditure required to settle the present obligation at the balance sheet date, discounted at an appropriate rate. The increase in provision due to the passage of time (that is a consequence of the discount rate) is recognized as borrowing cost.

Contingent liabilities are possible obligations whose existence will be confirmed only on the occurrence or non-occurrence of uncertain future events outside the entity's control, or present obligations that are not recognized because of the following:

- (a) It is not probable that an outflow of economic benefits will be required to settle the obligation; or
- (b) the amount cannot be measured reliably.

As per IndAS 37 (Provisions, contingent liabilities and contingent assets), Contingent liabilities, if any, are not recognized but are disclosed and described in the notes to the financial statements, including an estimate of their potential financial effect and uncertainties relating to the amount or timing of any outflow, unless the possibility of settlement is remote.

Contingent assets are possible assets whose existence will be confirmed only on the occurrence or non-occurrence of uncertain future events outside the entity's control. As per IndAS 37, Contingent assets, if any, are not recognized but are disclosed and described in the notes to the financial statements, including an estimate of their potential financial effect if the inflow of economic benefits is probable.

**Notes to IND AS Financial Statements for the year ended 31st March 2019**

---

**23. Cash and cash equivalents**

Cash and cash equivalents for the purpose of the cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

**24. Share based payments**

All types of share-based payments and transactions are measured at fair value and recognized over the vesting period in accordance with IndAS 102. However this is not applicable for equity instruments that vested before date of transition to IndAS.

**25. Events after the reporting period**

Dividends proposed or declared for the reporting period but before the financial statements are approved for issue, are not recognized as a liability at the end of the reporting period because no obligation exists at that time. This provision for dividends will be recognized only in the period when the dividend is declared and approved.

**26. Related Party Disclosures**

All disclosures as specified under IndAS 24 (Related party disclosures) are made in these Financial Statements in respect of the company's transactions with related parties.

**27. Leases**

A lease gives one party (the lessee) the right to use an asset over an agreed period of time in return for payment to the lessor.

Lease contracts entered into by the company are classified as operating leases. Under an operating lease, the lessor does not transfer substantially all of the risks and rewards of ownership.

Under an operating lease, the lessee does not recognize an asset and lease obligation. The rentals paid are normally charged to the income statement of the lessee and credited to that of the lessor on a straight-line basis.

**28. Financial Instruments**

Financial assets and financial liabilities are recognized on the Company Balance Sheet when the Company becomes a party to the contractual provisions of the instrument.

**Financial Assets - Trade receivables**

Trade receivables are non-interest-bearing and are recognized initially at fair value, and subsequently at amortized cost using the effective interest rate method, less provision for impairment, if any.

**Financial Assets - Investments**

Investments consist of investments in equity shares (quoted) and are recognized at fair value through other comprehensive income. Gains and losses arising from changes in fair value are recognized directly in other comprehensive income, until the security is disposed off or is determined to be impaired, at which time the cumulative gain or loss previously recognized in other comprehensive income is included in the income Statement for the period. Dividends, if any, on equity instrument are recognized in the Income Statement when the company's right to receive payment is established.

**Loans and Advances**

Loans and advances are initially recognized at fair value plus directly related transaction costs. Subsequent to initial recognition, these assets are carried at amortized cost using the effective interest method less any impairment losses. Income from these financial assets is calculated on an effective yield basis and is recognized in the Income Statement.

**Impairment of Loans and Advances**

At each balance sheet date, the Company reviews the carrying amounts of its loans and advances to determine whether there is any indication that those assets have suffered an impairment loss.

If there is objective evidence that an impairment loss on a financial asset or group of financial assets classified as loans and advances has been incurred, the Company measures the amount of the loss as the difference between the carrying amount of the asset or group

of assets and the present value of estimated future cash flows from the asset or Company of assets discounted at the effective interest rate of the instrument at initial recognition.

Impairment losses, if any, are recognized in the Income Statement and the carrying amount of the financial asset or Company of financial assets is reduced by establishing an allowance for impairment losses.

If in a subsequent period the amount of the impairment loss reduces and the reduction can be ascribed to an event after the impairment was recognized, the previously recognized loss is reversed by adjusting the allowance. Once an impairment loss has been recognized on a financial asset or Company of financial assets, interest income is recognized on the carrying amount using the rate of interest at which estimated future cash flows were discounted in measuring impairment.

Loan impairment provisions are established taking into account the level of arrears, security, past loss experience, credit scores and defaults

based on portfolio trends. The most significant factors in establishing these provisions are the expected loss rates.

#### **Interest-bearing borrowings**

Interest-bearing bank loans and overdrafts are initially recorded at fair value, net of attributable transaction costs. Subsequent to initial recognition, interestbearing borrowings are stated at amortized cost with any difference between proceeds and redemption value being recognized in the Income Statement over the period of the borrowings on an effective interest rate basis.

#### **Trade payables**

Trade payables are non-interest-bearing and are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method.

#### **Derivative financial instruments and hedge accounting**

The Company has not entered into any derivative or hedging transactions.

#### **Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the balance sheet only when there is a current legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

## **2.2 Recent accounting pronouncements**

The Ministry of Corporate Affairs (MCA), issues the Companies (Indian Accounting Standards) Amendment Rules, 2019 on 30th March 2019 notifying the leasing Standard Ind AS 116: Leases.

Ind AS 116 are applicable to Companies from financial year beginning on or after 1st April 2019. The MCA also issued the Companies (Indian Accounting

Standards) second amendment Rules 2019 on 30th March 2019. This rule proposes amendments to Ind AS 12; Income Taxes, Ind AS 19; Employee Benefits, Ind AS; Borrowing Costs, Ind AS 28; Investment in Associates and Joint Ventures, Ind AS 103; Business Combinations, Ind AS 111; Joint Arrangements and Ind AS 109; Financial Instruments. The rules also notified in Appendix C to Ind AS 12, uncertainty over Income Tax treatment. The rules are applicable to Companies from Financial year on or after 1st April 2019.

The applicability and impact of the above amendments on the financial statements has not been evaluated.

Some of the offshore Jackup rigs carry charge for bank term loans taken by the wholly owned foreign subsidiary of the company.

In respect of some Jack-up rigs, an impairment charge of Rs.198.69 Million (previous year: Rs.120.11 Million) has been recognized for the year 2018-19 as the carrying amounts of such assets exceeded its estimated value in use which is mainly due to the slump in the Oil and Gas industry.

**21. Fair value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The group categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or company's assumptions about pricing by market participants.

**22. Financial risk factors**

The Company's activities expose it to market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management strategy seeks to minimize adverse effect from the unpredictability of financial markets on the Company's financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Company. They review and agree on the policies for managing each of these risks and are summarized as follows:

**Foreign exchange risk**

The Company is exposed to foreign exchange risk principally via:

- transactional exposure that arises from the sales / receivables denominated in a currency other than the functional currency of the company

**Trade and other Receivable**

Rs. millions

Currency	2018-2019	2017-2018
USD	4,115.19	12,281.80
EURO	472.91	490.90

- Transactional exposure that arises from the cost of goods sold / payables denominated in a currency other than the functional currency of the Company.

**Payable**

USD	92.30	63.93
SGD	0.92	3.71
EURO	14.27	0.00
AED	3.46	3.97

- Foreign currency exposure that arises from foreign currency term loans / Working Capital loans (including interest payable) denominated in a currency other than the functional currency of the Company.

**Loan including interest payable**

Rs. millions

Currency	2018-2019	2017-2018
USD	3,749.96	3,313.35

- Cash and cash equivalents held in foreign currency.

**Cash & Cash equivalents**

Rs. millions

Currency	2018-2019	2017-2018
USD	10.36	79.73
EURO	1.04	1.06
AED	2.01	4.63

All these unhedged exposures are naturally hedged by future foreign currency earnings.

The impact on the Company financial statements from foreign currency volatility is shown in the sensitivity analysis.

**Sensitivity analysis**

The sensitivity analysis reflects the impact on income and equity due to financial instruments held at the balance sheet date. It does not reflect any change in sales or costs that may result from changing interest or exchange rates.

The following table shows the illustrative effect on the Income Statement and equity that would result, at the balance sheet date, from changes in currency exchange rates that are reasonably possible for major currencies where there have recently been significant movements:

**Notes to IND AS Financial Statements for the year ended 31st March 2019**

	2018- 2019		2017-2018	
	Income Gain / (Loss) Rs.Million	Equity Gain / (Loss) Rs. Million	Income Gain / (Loss) Rs.Million	Equity Gain / (Loss) Rs. Million
5% appreciation of USD(2018: 5 %)	13.65	-	445.23	-
10% appreciation of Euro(2018: 10%)	47.29	-	49.09	-
5% appreciation of SGD(2018: 5%)	-(0.05)	-	-(0.19)	-
5% appreciation of AED(2018: 5%)	-(0.17)	-	-(0.20)	-

The following table shows the illustrative effect on the Income Statement and equity that would result, at the balance sheet date, from changes in interest rates that are reasonably possible for term loans with floating interest where there have recently been significant movements:

	2018- 2019	2017- 2018
	Income Gain / (Loss) Rs.Million	Income Gain / (Loss) Rs. Million
Inrease in 6m LIBOR by 50 basis point	(15.71)	(21.78)
Inrease in rupee lending rate by 100 basis point	(14.32)	(4.69)

A decrease in interest rates and a depreciation of foreign currencies would have the opposite effect to the impact in the table above.

**Credit risk**

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The major classes of financial assets of the Company are bank deposits, trade receivables, amount due from associated company and amounts due from subsidiary corporations. For bank deposits, the Company maintains its cash deposits if any primarily with lenders of the Company or financial institutions with high credit quality to minimise their exposure to the banks.

Due to the nature of the Company's operations, revenue and receivable are typically concentrated amongst a relatively small customer base of oil and gas companies. Customers are government linked based oil and gas corporations. The Company has policies in place to ensure that drilling contracts are with customers of adequate financial standing and appropriate credit history, and where necessary, certain guarantees in form of bank. The maximum exposure to credit risk for each class of financial assets is the carrying amount of that class of financial assets on the balance sheet.

**(i) Financial assets that are neither past due nor impaired**

Bank deposits that are neither past due nor impaired are mainly deposits with banks with high credit-ratings assigned by international credit-rating agencies. Trade receivables that are neither past due nor impaired are substantially receivables from companies with a good collection track record with the Group. Amounts due from subsidiary corporations are neither past due nor impaired.

**(ii) Financial assets that are past due and/or impaired**

There is no other class of financial assets that is past due and/or impaired except for trade receivables. The age analysis of trade receivables that are past due but not impaired is as follows:

Particulars	Rs. millions	
	2018-2019	2017-2018
Past due upto 6 months	565.95	191.45
Past due over 6 months	4,270.63	4,093.03

Allowance for impairment of trade receivables arise from customers that are either in financial difficulties and/or have history at default or significant delay in payments which management is of the opinion that payments are not forthcoming as at the end of financial year. In the event that payment is doubtful, the receivables will be recommended for write off.

**(c) Liquidity risk**

The drilling operations of the Company require substantial investment and are dependent on its ability to finance its rig construction and acquisitions and service its bank borrowings as well as other capital and operating requirements and commitments. The Company ensures that arrangements have been made to obtain adequate funds to meet all its operating and capital obligations in the form of continuing committed credit facilities with financial institutions as well as continuing financial support from the immediate and ultimate holding corporation to enable the Group to meet its debts and liabilities as and when they fall due for at least 12 months from the balance sheet date.

The table below analyses the maturity profile of the Company's and the Company's financial liabilities based on contractual undiscounted cash flows at the balance sheet date.

As At 31-03-2019						Rs. millions
Non-derivative financial liabilities	Due within 1 year	Due between 1 and 2 years	Due between 2 and 3 years	Due between 3 and 4 years	Due between 4 and 5 years	Due beyond 5 years

Redeemable preference shares	3,972.41	-	-	-	-	-

The above analysis table does not include loans to be settled on demand.

**Capital management**

(a) The Company's objectives when managing capital are to ensure the Company's ability to continue as a going concern and to maintain an optimal capital structure by issuing or redeeming additional equity, borrowings and other instruments when necessary.

As the Company is mainly funded through external borrowings, the objectives of the Board of Directors when managing capital is to ensure that the Group and the Company continue to enjoy the use of funds from borrowings by ensuring that the Company continue to service its debt obligations in the form of interests and principal repayments on due dates in accordance with the borrowing agreements, and to ensure that they remain in compliance with the financial and non-financial covenants in relation to their borrowings.

The Company considers capital to comprise of its equity and borrowings, as follows:

Particulars	Rs. millions	
	2018-2019	2017-2018

**26. Employee stock option scheme**

The Company has instituted Employee Stock Option Scheme-2005 (ESOS) duly approved by the shareholders in the extra-ordinary general meeting of the company held on 23rd April 2005. As per the scheme, the compensation committee of the board evaluates the performance and other criteria of employees and approves the grant of option. These options vest with employees over a specified period subject to fulfillment of certain conditions. Upon vesting, employees are eligible to apply and secure allotment of company's equity share at the prevailing market price on the date of the grant of option.

The Securities Exchange Board of India (SEBI) issued the Employee Stock Option Scheme and Employees Stock Purchase Scheme guidelines in 1999, applicable to stock option schemes on or after 19th June 1999. Under these guidelines, the excess of the market price of the underlying equity shares as of the date of the grant over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period.

The Company has not recognized any deferred compensation expenses, as the exercise price was equal to the market value (as defined by SEBI) of the underlying equity shares on the grant date.

The details of option granted are given below:

Maximum number of options that may be granted under the scheme is 1.84 million equity shares of Rs.2 each. Options granted during the year- Nil (up to 31st March 2018: 1.84 Million equity shares of Rs.2 each)-Options lapsed during the year Nil (up to 31st March 2018: 0.286 million equity shares of Rs.2 each)-Options exercised during the year- Nil (up to 31st March 2018: 0.160 million equity shares of Rs.2 each)-Options outstanding at the end of year :1.396 million equity shares of Rs.2 each (up to 31st March 2018: 1.396 million equity shares of Rs.2 each)-Options yet to be granted under the scheme: 0.288 million (31st March 2018: 0.288 million equity shares of Rs.2 each).

## INDEPENDENT AUDITORS' REPORT

To the Members of

### ABAN OFFSHORE LIMITED

#### Report on the Audit of Consolidated IND AS Financial Statements

#### Disclaimer of Opinion

We were engaged to audit the accompanying consolidated IndAS Financial Statements of ABAN OFFSHORE LIMITED (here in after referred to as the "Holding company"), its subsidiaries and associates (the Holding company, its subsidiaries and associates) together referred to as ("the Group"), comprising of the Consolidated Balance Sheet as at 31st March, 2019, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow and the Consolidated Statement of changes in equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

We do not express an opinion on the accompanying financial statements of the entity. Because of the significance of the matters described in the Basis of Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

#### "Basis for Disclaimer of Opinion:

a) In case of wholly owned subsidiary of the company "Aban Holdings Pte Ltd" Singapore along with its subsidiaries and associates whose consolidated Financial Statements have been audited by other auditors "Nexia TS Public Accounting Corporation, Public accountants and Chartered Accountants, Singapore" have expressed disclaimer of opinion on the consolidated financial statements for the year ended 31st March, 2019 which is reproduced as under:

#### Going Concern

As disclosed in Note 2.1 to the financial statements, in preparing the financial statements, the Board of Directors have considered the operations of the Group and of the company as going concerns notwithstanding that the Group and the Company incurred a net loss of US\$744,649,000 and US\$6,893,000 (2018: US\$ 405,532,000 and US\$7,137,000) respectively for financial year ended 31 March 2019 and as at that date, the Group and the Company are in Net Current Liabilities position of US\$2,246,469,000 and US\$ 2,219,923,000 (2018: US\$2,056,505,000 and US\$ 2,113,235,000) respectively. The Group is also in net liabilities position of US\$841,129,000 (2018: US\$227,230,000) as at 31 March 2019.

As disclosed in Note 18, the carrying amount of the Group's rigs amounting to US\$1,371,563,000 (2018: US\$1,961,015,000) have been pledged as security for the borrowings of the Group and of the Company. An impairment loss on the rigs amounting to US\$516,270,000 (2018: US\$34,369,000) was made during the financial year ended 31 March 2019. In addition, as disclosed in Note 21 to the financial statements, the group and the Company have defaulted on payment of their borrowings which have fallen due and have breached the covenants of their borrowings which give the lenders the right to demand the related borrowings be due and payable immediately. The lenders have issued recall notices to the Group and the Company. Management had reclassified these borrowings of the Group and of the Company, with original repayment terms beyond 12 months from the balance sheet date as current liabilities. Discussions are on-going to conclude for the Group and of the Company on any re-negotiation, obtain replacement financing or raise funds through any fund raising exercises or any such proposal with the lenders as of the date of this report.

The above conditions indicate the existence of material uncertainties which may cast significant doubt on the Group's and Company's ability to continue as going concern. Nevertheless, the Board of Directors believes that the use of the going concern assumption on the preparation of financial statements of the Group and of the Company for the financial year ended 31 March 2019 is still appropriate after taking into consideration of the above actions and measures.

The ability of the Group and of the Company to continue in operational existence in the foreseeable future and to meet their financial obligations as and when they fall due are dependent on the actions and measures undertaken as disclosed above and it is uncertain whether the Group and the Company will raise further funds through any fund raising exercises. Therefore, we are unable to obtain sufficient audit evidence to be able to form an opinion as to whether the going concern basis of the preparation of the accompanying financial statements of the Group and of the Company is appropriate.

If the Group and the Company are unable to continue in operational existence in the foreseeable future, the Group and the Company may be unable to discharge their liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets, in particularly the rigs of the Group, may need to be realized other than in normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the balance sheets. In addition, the Group and the Company may have to reclassify non-current assets and liabilities to current assets and liabilities respectively. The financial statements do not include any adjustment which may arise from these uncertainties."

We refer to Qualified Opinion in our Independent Auditor's Report on the financial statements of ABAN OFFSHORE LIMITED for the year ended 31st March 2019.

**Basis for Qualified Opinion**

We draw attention to Note no 4(b) to Standalone Ind AS financial statements in respect of investments of Rs.35317.32 million in wholly owned foreign subsidiary which along with its downstream subsidiary companies that have significant accumulated losses as at 31st March 2019. In the absence of any fair valuation assessment of such investments, we are unable to comment upon the carrying value of these investments and the consequential impact, if any, on the accompanying standalone financial statements for the year ended 31st March 2019.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion on the standalone financial statements.

**Emphasis of matter**

- (a) We draw attention to Note No 8(a) to Standalone Ind AS financial statements; The Company has defaulted in repayment of installments and payment of interest on term loans from banks for an amount of Rs.5,495.97 million. The Banks have recalled the entire loan outstanding including interest. As such, the Company has re-classified these dues to banks from Non-current Liabilities to Current Liabilities
- (b) We draw attention to Note No 31 to Standalone Ind AS financial statements; The Company has given corporate guarantees to customers on behalf of subsidiaries of company's wholly owned foreign subsidiary amounting to Rs.6,895 million.

**Our opinion is not modified in respect of the above matters.**

**Other Matters**

- (a) The financial statements of Aban Energies Limited, Chennai, India, an Indian subsidiary of the Holding company are audited by other Auditors which reflects the total assets of Rs. 4.00 million as at 31st March, 2019 and total revenue of Rs. 12.91 million for the year then ended.
- (b) The financial statements of Aban Holdings Pte Limited, Singapore and its Subsidiaries, whose consolidated financial statements have been audited by other auditors. We are informed that Deep Drilling Mexico S DE R L DE CV, Mexico ('DD Mexico') a subsidiary of Aban Singapore Pte Ltd is not required to be audited. The unaudited financial statement of Deep Drilling Mexico S DE R L DE CV, Mexico reflects the total assets of Rs. 45.21 Million as at 31st March, 2019 and total revenue of Rs. 108.30 Million for the year then ended. The consolidated net loss of Rs. 52,027.46 Million for the year ended 31st March 2019 includes share of net loss of Rs.23.42 Million in respect of two (2) associates. The audit report of the consolidated accounts of "Aban Holdings Pte Ltd", the wholly owned foreign subsidiary and its subsidiaries includes unaudited financials of 'DD Mexico'.
- (c) The financial information /financial statements have been furnished by the management and our opinion on the consolidated financial statements in respect of these subsidiaries and associates and our report in terms of sub Section (3) and (11) of section 143 of "the Act" in so far as it relates to the afore said Subsidiaries and associates is solely based on reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor.

**Responsibility of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements**

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 that give a true and fair view of the Consolidated financial position, Consolidated financial performance and Consolidated cash flows of the Group including its Associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

## ANNEXURE A”

### ANNEXURE TO INDEPENDENT AUDITORS’ REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF ABAN OFFSHORE LTD

#### Report on the Internal Financial Controls under clause (i) of the Sub-section 3 of the Section 143 of the Companies Act, 2013 (‘The Act’)

In conjunction with our audit of the consolidated Ind AS financial statements of the Group as of and for the year ended 31st March 2019, we have audited the internal financial controls over financial reporting of Aban Offshore Limited (“the holding company”) and its Indian subsidiary company.

#### Management’s Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its Indian subsidiary company, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor’s Responsibility

Our responsibility is to express an opinion on the respective Company’s internal financial controls over financial reporting based on our Audit. We conducted our audit in accordance with the Guidance note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an Audit of Internal Financial Controls. These standards and guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our Audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditor’s Judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes these policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

### **Inherent Limitation of Internal Financial Controls over Financial Reporting**

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Holding Company and its Indian subsidiary company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2019, based on the internal control over financial reporting criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

### **Other Matters**

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to the Indian subsidiary Company, is based on our audit reports of such company.

**1. Corporate Information**

Aban Offshore Limited (AOL) (the Parent Company) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two stock exchanges in India. The Parent Company and its 20 subsidiaries and three associates are referred to as “Company” for the purpose of this Consolidated Financial Statements. The Parent Company has one Indian subsidiary company - Aban Energies Ltd (wholly owned subsidiary), and a wholly owned foreign subsidiary Aban Holdings Pte. Limited, Singapore. The Parent Company, the wholly owned foreign subsidiary and its step-down subsidiaries are engaged in the business of providing offshore drilling and production services to companies engaged in exploration, development and production of oil and gas both in domestic and international markets. The Parent Company and its Indian subsidiary are engaged in the ownership, operation and maintenance of wind turbines for generation of electricity through wind power in India.

**2. Basis of preparation**

The Consolidated financial statements have been prepared in accordance with IFRS converged Indian Accounting Standards (IndAS) as issued by the Ministry of Corporate Affairs (MCA).

All the assets and liabilities have been classified as current and non-current as per the Company’s normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of business operations, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

**3. Principles of consolidation**

The consolidated financial statements have been prepared in accordance with IndAS 27 (Separate financial statements), IndAS 110 ( Consolidated financial statements) and IndAS 112 (Disclosure of interest in other entities) based on the core principle that the consolidated entity presents the Parent company and its subsidiaries as if they are a single economic entity.

In preparing these consolidated financial statements, the financial statements of the Parent company and its subsidiaries are combined line by line by adding together like items of assets, liabilities, equity, income and expenses. In order that the consolidated financial statements present financial information about the Company as that of a single economic entity, the following steps are taken:

- (a) The carrying amount of the parent’s investment in each subsidiary and the parent’s portion of equity of each subsidiary are eliminated. The excess/deficit of cost to the Parent Company of its investment over its portion of net worth in consolidated Subsidiaries at the respective dates on which the investment in such entities was made is recognized in the financial statements as goodwill/capital reserve.
- (b) Non-controlling interests in the profit or loss of consolidated subsidiaries for the reporting period, if any, are identified; and
- (c) Non-controlling interests in the net assets of consolidated subsidiaries, if any, are identified separately from the parent’s ownership interests in them.

IntraCompany balances and transactions, including income, expenses and dividends, are eliminated in full. Profits and losses resulting from intraCompany transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full.

These Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

Functional Currency of Foreign Subsidiaries is USDollars. The assets and liabilities of overseas subsidiaries denominated in foreign currencies are translated in INR at exchange rates prevailing at the date of the Balance Sheet; profits and losses are translated at average exchange rates for the relevant accounting periods. Exchange differences arising are recognized in the Other Comprehensive Income and are included in the translation reserve. Such translation differences shall be recognized as income or expenses in the period in which the operation is disposed of.

**3.1 Summary of significant accounting policies****I Use of estimates**

Preparation of these consolidated financial statements in accordance with IndAS requires management to make judgements on the basis of certain estimates and assumptions. In addition, the application of accounting policies requires management judgement. Estimates are based on the managements view on past events and future development and strategies. Management reviews the estimates and assumptions on a continuous basis, by reference to past experiences and other factors that can reasonably be used to assess the book values of assets and liabilities.

The accounting policies which have the most significant effect on the figures disclosed in the consolidated financial statements are mentioned below and these should be read in conjunction with the disclosure of the significant IndAS accounting policies provided below:

**i. Impairment testing**

Company's management reviews regularly, and at each reporting date, whether there is any indication of impairment in respect of Goodwill. Goodwill is tested annually for impairment, even if there is no indication of impairment.

**ii. Useful life of Property, Plant and Equipment**

The assessment of the useful life of each asset by considering the historical experience and expectations regarding future operations and expected usage, estimated technical obsolescence, residual value, physical wear and tear and the operating environment in which the asset is located needs significant judgement by the management.

**iii. Fair Value**

Certain financial instruments, such as investments in equity securities, derivative financial instruments and certain elements of borrowings, are carried in the financial statements at fair value, with changes in fair value reflected in the income statements. Fair values are estimated by reference to published price quotations or by using other valuation techniques that may include inputs that are not based on observable market data, such as discounted cash flows analysis.

**II Presentation of true and fair view**

These Consolidated financial Statements have been prepared by applying IndAS principles and necessary disclosures have been made which present a true and fair view of the financial position, financial performance and cash flows of the Company.

**III Going concern**

These Consolidated financial statements have been prepared on a going concern basis and it is assumed that the company will continue in operation in the foreseeable future and neither there is an intention nor need to materially curtail the scale of operations.

**IV Accrual basis**

These Consolidated financial statements, except for cash flow information, have been prepared using the accrual basis of accounting

**V Materiality**

Each material class of similar items has been presented separately in these Consolidated Financial Statements.

**VI Basis of Measurement**

These consolidated financial statements have been prepared on a historical cost convention and on an accrual basis, except for certain property, plant and equipment and financial instruments that have been measured at fair values or revalued amounts as required by the relevant IndAS.

**VII Offsetting**

In preparation of these Consolidated Financial Statements, the Company has not offset assets and liabilities or income and expenses, unless required or permitted by Ind AS.

**VIII Investment in Associates**

An associate is an entity in which the investor has significant influence, but which is neither a subsidiary nor a joint venture of the investor. Interests in Associates are accounted in these Consolidated Financial Statements using the equity method of accounting in accordance with IndAS 28.

**IX Functional and Presentation Currency**

IndAS 21 (Effects of changes in foreign exchange rates) requires that functional currency and presentation currency be determined. Functional currency is the currency of the primary economic environment in which the entity operates. Presentation currency is the currency in which the financial statements are presented.

These consolidated financial statements are presented in Indian Rupee, which is the functional currency and presentation currency of the Parent Company. All foreign currency transactions are expressed in the functional currency using the exchange rate at the transaction date.

Foreign currency balances representing cash or amounts to be received or paid in cash (monetary items) are retranslated at the end of the year using the exchange rate on that date. Exchange differences on such monetary items are recognized as income or expense for the year.

Non-monetary balances that are not remeasured at fair value and are denominated in a foreign currency are expressed in the functional currency using the exchange rate at the transaction date. Where a non-monetary item is remeasured at fair value in the financial statements, the exchange rate at the date when fair value was determined is used.

The functional currency of the foreign subsidiaries is United States Dollars. However for the purpose of preparation of consolidated financial statements, the assets and liabilities of the foreign subsidiaries are translated and presented in Indian Rupees (which is the functional and presentation currency of the Parent company) at the closing rate at the end of the reporting period. The income statement is translated at exchange rates at the dates of the transactions or at the average rate if that approximates the actual rates. All resulting exchange differences are recognized in other comprehensive income.

**X Property, plant and equipment**

Property, plant and equipment (PPE) is recognized when the cost of an asset can be reliably measured and it is probable that the entity will obtain future economic benefits from the asset.

PPE is measured initially at cost. Cost includes the fair value of the consideration given to acquire the asset (net of discounts and rebates) and any directly attributable cost of bringing the asset to working condition for its intended use (inclusive of import duties and non-refundable purchase taxes).

The company has chosen the deemed cost exception provided in Ind AS 101. Accordingly, it has partly revalued in property, plant and equipment, and partly recalculated carrying values by applying Ind AS guidance from the date of acquisition of such assets.

The cost of a major inspection or overhaul of an item occurring at regular intervals over the useful life of the item is capitalised to the extent that it meets the recognition criteria of an asset. The carrying amounts of the parts replaced are derecognized.

**XI Depreciation on Property, plant and equipment**

The depreciable amount of PPE (being the gross carrying value less the estimated residual value) is depreciated on a systematic basis over its useful life. Subsequent expenditure relating to an item of PPE is capitalised if it meets the recognition criteria.

PPE may comprise parts with different useful lives. Depreciation is calculated based on each individual part's life subject to the life of the main asset. In case of replacement of one part, the new part is capitalised to the extent that it meets the recognition criteria of an asset, and the carrying amount of the parts replaced is derecognized.

Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful life of the assets as under-

<b>Fixed Assets</b>	<b>Useful Life</b>
Buildings	60 years
Drilling Rigs	30 or 40 years
Drillship	25 or 40 years
Office Equipment	5 years
Computers	3 years
Windmills	22 years
Furniture and fixtures	10 years
Motor Vehicles	3/8 years

**XII Intangible assets**

An intangible asset is an identifiable non-monetary asset without physical substance.

- a. Goodwill is recognized in these Consolidated Financial Statements as an intangible asset using the following principles:

An intangible asset has an indefinite useful life when, based on an analysis of all the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the entity.

Goodwill on acquisition of subsidiaries has been recognized in the consolidated financial statements as an intangible asset and it is measured on the date of acquisition applying the principles of IndAS retrospectively.

Goodwill is presumed to have indefinite useful life. Hence goodwill will not be amortised but tested for impairment annually or whenever there is an indication of impairment.

- b. **Acquired Licence**

Licence acquired is initially recognized at cost and subsequently carried at cost less accumulated amortization and accumulated impairment losses. These costs are amortised to Profit and loss using the straight line method over the period of contractual right or estimated useful lives. The acquired licence is not amortised until it is available for use.

**XIII Borrowings costs**

Borrowing costs are interest and other costs that an entity incurs in connection with the borrowing of funds. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of that asset. Other borrowing costs are recognized as an expense.

Borrowing costs include interest expense, if any, calculated using the effective interest method, finance charges, if any, in respect of finance leases and exchange differences, if any, arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

**XIV Impairment of Property, plant and equipment**

An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss is recognized immediately in profit or loss, unless the asset is carried at revalued amount. Any impairment loss of a revalued asset shall be treated as a revaluation decrease.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

An impairment loss recognized in prior periods for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized.

**XV Investments**

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

Quoted Investments are recognized and measured at fair value.

**XVI Inventories**

The Company determines the cost for items that are not interchangeable or that have been segregated for specific contracts on an individual-item basis as per IndAS 2, 'Inventories'. The cost of other inventory items used is assigned by using either the first-in, first-out (FIFO) or weighted average cost formula.

The Company uses the same cost formula for all inventories of similar nature and use. The cost formula used is applied on a consistent basis from period to period.

Inventories are initially recognized at the lower of cost and net realisable value (NRV). Cost of inventories includes import duties, non-refundable taxes, transport and handling costs and any other directly attributable costs, less trade discounts, rebates and similar items. Costs such as abnormal amount of wasted materials, storage costs, administrative costs and selling costs are excluded from the cost of inventories. NRV is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated selling expenses.

**XVII Revenue recognition**

Revenue is recognized when a customer obtains control of a good or service. A customer obtains control when it has the ability to direct the use of and obtain the benefits from the goods or services.

For this, the company first determines whether control is transferred over time. If the answer to this question is negative, only then revenue is recognized at a point in time, or else it is recognized over time.

The company recognizes revenue to depict the transfer of goods or services to customers at an amount expected to be received in exchange for those goods or services.

Income from drilling services is recognized as earned, based on contractual daily rates billed on monthly basis. Mobilization / demobilization fees received, if any, is recognized as earned in the year of mobilization/demobilization.

Income from wind power generation is recognized based on the number of units of power generated every month at contracted rates.

Interest income is recognized on time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

Dividend income is recognized when the company's right to receive dividend is established by the reporting date.

**XVIII Retirement and other employee benefits**

Employee benefits are all forms of consideration given or promised by the company in exchange for services rendered by its employees. These benefits include salary-related benefits (such as wages, profit-sharing, bonuses and compensated absences, such as paid holiday and long-service leave), termination benefits (such as severance and redundancy pay) and postemployment benefits (such as retirement benefit plans).

**Defined contribution plans**

The cost of defined contribution plans is the contribution payable by the employer for that accounting period.

Contribution to Provident Fund which is a defined contribution retirement plan is made monthly at a predetermined rate to the Provident Fund Authorities and is debited to the statement of profit and loss on accrual basis.

Contribution to Superannuation Scheme/National Pension Scheme which is defined contribution retirement plan is made annually at predetermined rate to insurance companies/Pension Funds which administer the fund and debited to the statement of Profit and Loss

**Defined benefit plans**

Accounting for defined benefit plans is based on actuarial assumptions and different valuation methods to measure the balance sheet obligation and the expense.

Where defined benefit plans are funded, the plan assets are measured at fair value. At each balance sheet date, the plan assets and the defined benefit obligations are remeasured. The income statement reflects the change in the surplus or deficit, except for contributions made to the plan and benefits paid by the plan, along with business combinations and remeasurement gains and losses.

Remeasurement gains and losses comprise actuarial gains and losses, return on plan assets (comprise amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability or asset). Remeasurements are recognized in other comprehensive income.

The amount of pension expense to be recognized in profit or loss is comprised of the following individual components, unless they are required or permitted to be included in the costs of an asset:

- Service costs (present value of the benefits earned by active employees)
- Net interest costs (unwinding of the discount on the defined benefit obligations and a theoretical return on plan assets)

Annual contribution is made to Gratuity Funds administered by Insurance Companies, which is considered as defined benefit plan. The present value of the defined benefit is measured using the 'Projected Unit Credit method with actuarial valuation being carried out at each Balance Sheet date by an independent valuer. Actuarial gain and losses are immediately recognized in the statement of profit and loss. Amount of contribution, computed by the insurers is paid by the company and charged to statement of profit and loss. No additional liability is anticipated under the scheme administered by the Insurance Companies.

Provision for leave encashment is based on actuarial valuation carried out by an independent actuary at the Balance Sheet date.

**XIX Taxes on income**

Current tax expense is based on the taxable and deductible amounts to be used for the computation of the taxable income for the current year. A liability is recognized in the balance sheet in respect of current tax expense for the current and prior periods to the extent unpaid. An asset is recognized if current tax has been overpaid.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided in full for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, except when the temporary difference arises from the following:

- Initial recognition of goodwill (for deferred tax liabilities only)
- Initial recognition of an asset or liability in a transaction which is not a business combination and which affects neither accounting profit nor taxable profit
- Investments in subsidiaries, branches, associates and joint ventures, but only when certain criteria apply

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date.

A deferred tax asset is recognized for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

Current and deferred tax is recognized in profit or loss for the period, unless the tax arises from a business combination or a transaction or event that is recognized outside profit or loss, either in other comprehensive income or directly in equity in the same or different period.

Deferred income taxes have not been recognised on certain temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in respect of foreign subsidiary.

**XX Derivative financial instruments and hedge accounting**

**Initial recognition and subsequent measurement**

Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognized in Other Comprehensive Income (OCI) and later reclassified to profit or loss when the hedge item affects profit or loss.

For the purpose of hedge accounting, hedges are classified as:

Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment.

Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment.

Hedges of a net investment in a foreign operation

The company does not have any derivatives instruments during the period April 1, 2018 to March 31, 2019.

**XXI Segment reporting**

**Identification of segments**

The Company's operating businesses are organized and managed separately according to the nature of services provided with each segment representing strategic business unit that offers different services. The Company is engaged primarily in the business of offshore drilling services. The wind energy division of the Company does not meet the quantitative threshold as per IND AS 108. Accordingly there is no requirement of segment reporting as per the said Accounting Standard.

**XXII Earnings per share**

Basic EPS is calculated by dividing the profit or loss for the period attributable to the equity holders of the parent company by the weighted average number of ordinary shares outstanding (including adjustments for bonus and rights issues).

Diluted EPS is calculated by adjusting the profit or loss and the weighted average number of ordinary shares by taking into account the conversion of any dilutive potential ordinary shares.

Basic and diluted EPS are presented in the statement of profit and loss for each class of ordinary shares in accordance with IndAS 33 (Earnings per share).

**XXIII Provisions, contingent liabilities and contingent assets**

The Company recognizes a provision when:

- There is a present obligation to transfer economic benefits as a result of past events;
- it is probable (more likely than not) that such a transfer will be required to settle the obligation;
- and a reliable estimate of the amount of the obligation can be made.

The amount recognized as a provision is the best estimate of the expenditure required to settle the obligation at the balance sheet date, measured at the expected cash flows discounted for the time value of money. Provisions are not recognized for future operating losses.

An obligation and any anticipated recovery are presented separately as a liability and an asset respectively; however, an asset is

recognized only if it is virtually certain that settlement of the obligation will result in a reimbursement, and the amount recognized for the reimbursement does not exceed the amount of the provision. The amount of any expected reimbursement is disclosed. Net presentation is done only in the income statement.

Management performs an exercise at each balance sheet date to identify the best estimate of the expenditure required to settle the present obligation at the balance sheet date, discounted at an appropriate rate. The increase in provision due to the passage of time (that is a consequence of the discount rate) is recognized as cost.

Contingent liabilities are possible obligations whose existence will be confirmed only on the occurrence or non-occurrence of uncertain future events outside the entity's control, or present obligations that are not recognized because of the following:

- (a) It is not probable that an outflow of economic benefits will be required to settle the obligation; or
- (b) the amount cannot be measured reliably.

As per IndAS 37 (Provisions, Contingent liabilities and Contingent assets), Contingent liabilities, if any, are not recognized but are disclosed and described in the notes to the Consolidated financial statements, including an estimate of their potential financial effect and uncertainties relating to the amount or timing of any outflow, unless the possibility of settlement is remote.

Contingent assets are possible assets whose existence will be confirmed only on the occurrence or non-occurrence of uncertain future events outside the entity's control. As per IndAS 37, Contingent assets, if any, are not recognized but are disclosed and described in the notes to the Consolidated financial statements, including an estimate of their potential financial effect if the inflow of economic benefits is probable.

#### **XXIV Cash and cash equivalents**

Cash and cash equivalents for the purpose of the cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

#### **XXV Share based payments**

All types of share-based payments and transactions are measured at fair value and recognized over the vesting period in accordance with IndAS 102. However this is not applicable for equity instruments that vested before date of transition to IndAS.

#### **XXVI Related Party Disclosures**

All disclosures as specified under IndAS 24 (Related party disclosures) are made in these Consolidated Financial Statements in respect of the company's transactions with related parties.

#### **XXVII Leases**

A lease gives one party (the lessee) the right to use an asset over an agreed period of time in return for payment to the lessor.

Lease contracts entered into by the company are classified as operating leases. Under an operating lease, the lessor does not transfer substantially all of the risks and rewards of ownership.

Under an operating lease, the lessee does not recognize an asset and lease obligation. The rentals paid are normally charged to the income statement of the lessee and credited to that of the lessor on a straight-line basis.

#### **XXVIII Financial Instruments**

Financial assets and financial liabilities are recognized on the Company Balance Sheet when the Company becomes a party to the contractual provisions of the instrument.

##### **Financial Assets - Trade receivables**

Trade receivables are non-interest-bearing and are recognized initially at fair value, and subsequently at amortized cost using the effective interest rate method, less provision for impairment, if any.

### **Financial Assets - Investments**

Investments consist of investments in equity shares (quoted) and are recognized at fair value through OCI. Gains and losses arising from changes in fair value are recognized directly in other comprehensive income, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in other comprehensive income is included in the Consolidated Income Statement for the period. Dividends, if any, on equity instrument are recognized in the Company Income Statement when the company's right to receive payment is established.

### **Loans and advances**

Loans and advances are initially recognized at fair value plus directly related transaction costs. Subsequent to initial recognition, these assets are carried at amortized cost using the effective interest method less any impairment losses. Income from these financial assets is calculated on an effective yield basis and is recognized in the Consolidated Income Statement.

### **Impairment of loans and advances**

At each balance sheet date, the Company reviews the carrying amounts of its loans and advances to determine whether there is any indication that those assets have suffered an impairment loss.

If there is objective evidence that an impairment loss on a financial asset or Company of financial assets classified as loans and advances has been incurred, the Company measures the amount of the loss as the difference between the carrying amount of the asset or Company of assets and the present value of estimated future cash flows from the asset or Company of assets discounted at the effective interest rate of the instrument at initial recognition.

Impairment losses, if any, are recognized in the Consolidated Income Statement and the carrying amount of the financial asset or Company of financial assets is reduced by establishing an allowance for impairment losses.

If in a subsequent period the amount of the impairment loss reduces and the reduction can be ascribed to an event after the impairment was recognized, the previously recognized loss is reversed by adjusting the allowance. Once an impairment loss has been recognized on a financial asset or Company of financial assets, interest income is recognized on the carrying amount using the rate of interest at which estimated future cash flows were discounted in measuring impairment.

Loan impairment provisions are established taking into account the level of arrears, security, past loss experience, credit scores and defaults based on portfolio trends. The most significant factors in establishing these provisions are the expected loss rates.

### **Interest-bearing borrowings**

Interest-bearing bank loans and overdrafts are initially recorded at fair value, net of attributable transaction costs. Subsequent to initial recognition, interestbearing borrowings are stated at amortized cost with any difference between proceeds and redemption value being recognized in the Consolidated Income Statement over the period of the borrowings on an effective interest rate basis.

### **Trade payables**

Trade payables are non-interest-bearing and are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method.

### **Derivative financial instruments and hedge accounting**

The Company has not entered into any derivative or hedging transactions.

### **Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the balance sheet only when there is a current legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

- a. Goodwill - An Impairment charge of Rs 10,033.48 Million was recognized in the Profit and Loss for the financial year ended March 31, 2018. The impairment charge was brought about by the slump in the oil and gas industry. For the financial year ended March 31, 2019, no impairment assessment has been carried out as it has been fully impaired.
- b. Licence – During the financial year, the wholly owned foreign subsidiary of the Parent Company, through its new incorporated subsidiary company Caldera Petroleum (UK) Petroleum Limited has acquired the UK Continental Shelf Petroleum Production Licence No : P198 Block 15/13 a and 15/13b in the UK Central North Sea (Licence) for a consideration of Rs 5199.52 Million. Subsequently it sold 50% of its interest in the Licence to Hibiscus and entered into a joint operating agreement with them. Refer Note 29(a) for details.

The Licence is carried at cost without amortization but is tested for impairment whenever there is any objective evidence or indication that the asset may be impaired.

#### 24. Fair value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The group categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants.

**25. Financial risk factors**

The Company's activities expose it to market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management strategy seeks to minimize adverse effect from the unpredictability of financial markets on the Company's financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Company. They review and agree on the policies for managing each of these risks and are summarised as follows:

The main financial risks faced by the Company relate to fluctuations in interest and foreign exchange rates, the risk of default by counterparties to financial transactions and the availability of funds to meet business needs. The management of these risks is set out below.

**Foreign exchange risk**

The Company is exposed to foreign exchange risk principally via:

- transactional exposure that arises from the sales / receivables denominated in a currency other than the functional currency of the company

Receivable

Receivable	Rs. Million	Rs. Million
Currency	2018-2019	2017-2018
USD	4,092.37	4,217.76
EURO	472.91	490.90

- transactional exposure that arises from the cost of goods sold / payables denominated in a currency other than the functional currency of the Company

Payable

Payable	Rs. Million	Rs. Million
Currency	2018-2019	2017-2018
USD	92.30	63.93
SGD	0.92	3.71
AED	3.46	3.97
EURO	14.27	0.00

- Foreign currency exposure that arises from foreign currency term loans / Working Capital loans (including interest payable) denominated in a currency other than the functional currency of the Company.

Loan incl interest payable	Rs. Million	Rs. Million
Currency	2018-2019	2017-2018
USD	3,749.96	3,313.35

- Cash and cash equivalents held in foreign currency.

	Rs. Million	Rs. Million
Currency	2018-2019	2017-2018
USD	10.36	79.73
SGD	1.04	1.06
AED	2.01	4.63

All these unhedged exposures are naturally hedged by future foreign currency earnings.

The impact on the Company financial statements from foreign currency volatility is shown in the sensitivity analysis.

**Sensitivity analysis**

The sensitivity analysis reflects the impact on income and equity due to financial instruments held at the balance sheet date. It does not reflect any change in sales or costs that may result from changing interest or exchange rates.

The following table shows the illustrative effect on the Consolidated Income Statement and equity that would result, at the balance sheet date, from changes in currency exchange rates that are reasonably possible for major currencies where there have recently been significant movements:

	2018-2019		2017-2018	
	Income Gain/ (Loss) Rs.Million	Equity Gain/ (Loss) Rs.Million	Income Gain/ (Loss) Rs.Million	Equity Gain/ (Loss) Rs.Million
5% appreciation of USD(2017: 5 %)	12.51	-	42.02	-
10% appreciation of Euro(2017: 10%)	45.86	-	49.09	-
5% appreciation of SGD(2017: 5%)	(0.05)	-	(0.19)	-
5% appreciation of AED(2017: 5%)	(0.17)	-	(0.20)	-

The following table shows the illustrative effect on the Income Statement and equity that would result, at the balance sheet date, from changes in interest rates that are reasonably possible for term loans with floating interest where there have recently been significant movements:

**Currency Table**

	2018- 2019	2017- 2018
	Income Gain / (Loss) Rs.Million	Income Gain / (Loss) Rs. Million
Increase in LIBOR by 50 basis points	(282.97)	(312.44)
Increase in Bond borrowings by 100 basis points	(6.42)	(6.02)
Increase in rupee lending rate by 100 basis points	(842.42)	(709.76)

A decrease in interest rates and a depreciation of foreign currencies would have the opposite effect to the impact in the table above.

**Credit risk**

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The major classes of financial assets of the Company are bank deposits, trade receivables, amount due from associated company and amounts due from subsidiary corporations. For bank deposits, the Company maintains its cash deposits if any primarily with lenders of the Company or financial institutions with high credit quality to minimise their exposure to the banks.

Due to the nature of the Company's operations, revenue and receivable are typically concentrated amongst a relatively small customer base of oil and gas companies. Customers are government linked based oil and gas corporations. The Company has policies in place to ensure that drilling contracts are with customers of adequate financial standing and appropriate credit history, and where necessary, certain guarantees in form of bank. The maximum exposure to credit risk for each class of financial assets is the carrying amount of that class of financial assets on the balance sheet.

**(i) Financial assets that are neither past due nor impaired**

Bank deposits that are neither past due nor impaired are mainly deposits with banks with high credit-ratings assigned by international credit-rating agencies. Trade receivables that are neither past due nor impaired are substantially receivables from companies with a good collection track record with the Group. Amounts due from subsidiary corporations are neither past due nor impaired.

**(ii) Financial assets that are past due and/or impaired**

There is no other class of financial assets that is past due and/or impaired except for trade receivables. The age analysis of trade receivables that are past due but not impaired is as follows:

Particular	2018-2019	2017-2018
Past Due upto 6 months	1,362.95	3,041.74
Past Due over 6 months	9,767.27	15,686.19

Allowance for impairment of trade receivables arise from customers that are either in financial difficulties and/or have history at default or significant delay in payments which management is of the opinion that payments are not forthcoming as at the end of financial year. In the event that payment is doubtful, the receivables will be recommended for write off.

#### Liquidity risk

The drilling operations of the Company requires substantial investment and are dependent on its ability to finance its rig construction and acquisitions and service its bank borrowings as well as other capital and operating requirements and commitments. The Company ensures that arrangements have been made to obtain adequate funds to meet all its operating and capital obligations in the form of continuing committed credit facilities with banks and financial institutions.

The undiscounted cash flows will differ from both the carrying values and fair value. Cash flows in foreign currencies are translated using spot rates at the balance sheet date.

#### Capital management

( a ) The Company's objectives when managing capital are to ensure the Company's ability to continue as a going concern and to maintain an optimal capital structure by issuing or redeeming additional equity, borrowings and other instruments when necessary.

As the Company is mainly funded through external borrowings, the objectives of the Board of Directors when managing capital is to ensure that the Group and the Company continue to enjoy the use of funds from borrowings by ensuring that the Company continue to service its debt obligations in the form of interests and principal repayments on due dates in accordance with the borrowing agreements, and to ensure that they remain in compliance with the financial and non-financial covenants in relation to their borrowings.

The Company considers capital to comprise of its equity and borrowings, as follows:

	Rs. millions	
Particulars	2018-2019	2017-2018
Total Equity	(53,086.32)	186.81
Borrowings	143,513.25	137,400.98

**(b) Fair value measurements**

The carrying amounts less impairment provision of trade receivables and payables are assumed to approximate their fair values. The carrying amounts of current borrowings approximate their fair values.

**26. Earnings per share (EPS)**

The following reflects the profit and share data used in the basic and diluted EPS computations

	<b>Year ended 31st March 2019 Rs. millions</b>	<b>Year ended 31st March 2018 Rs. millions</b>

\*Since diluted earnings per share shows higher value as compared to basic earnings when taking the options/warrants into account, the options/warrants are anti-dilutive as at the year ended 31.03.2019 and are ignored in the calculation of diluted earnings per share as required under the Accounting Standard.

**27. Gratuity and other defined benefit plans**

The company operates a gratuity benefit plan which is funded with an insurance company in the form of a qualifying insurance policy. The company operates a leave encashment plan which is not funded.

Contribution to Provident Fund which is a defined contribution retirement plan is made monthly at a predetermined rate to the Provident Fund Authorities and is debited to the Statement of Profit and Loss on accrual basis.

Contribution to Superannuation Scheme / National Pension Scheme (NPS), which is defined contribution retirement plan, is made annually at predetermined rate to Insurance Companies / Pension Funds which administer the fund and debited to the Statement of Profit and Loss

**28. Employee stock option scheme**

The Company has instituted Employee Stock Option Scheme-2005 (ESOS) duly approved by the shareholders in the extra-ordinary general meeting of the company held on 23rd April 2005. As per the scheme, the compensation committee of the board evaluates the performance and other criteria of employees and approves the grant of option. These options vest with employees over a specified period subject to fulfillment of certain conditions. Upon vesting, employees are eligible to apply and secure allotment of company's equity share at the prevailing market price on the date of the grant of option.

The Securities Exchange Board of India (SEBI) issued the Employee Stock Option Scheme and Employees Stock Purchase Scheme guidelines in 1999, applicable to stock option schemes on or after 19th June 1999. Under these guidelines, the excess of the market price of the underlying equity shares as of the date of the grant over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period.

The Company has not recognized any deferred compensation expenses, as the exercise price was equal to the market value (as defined by SEBI) of the underlying equity shares on the grant date.

The details of option granted are given below:

Maximum number of options that may be granted under the scheme is 1.84 million equity shares of Rs.2 each. Options granted during the year- Nil (up to 31st March 2018: 1.84 Million equity shares of Rs.2 each)-Options lapsed during the year Nil (up to 31st March 2018: 0.286 million equity shares of Rs.2 each)-Options exercised during the year- Nil (up to 31st March 2018: 0.160 million equity shares of Rs.2 each)-Options outstanding at the end of year :1.396 million equity shares of Rs.2 each (up to 31st March 2018: 1.396 million equity shares of Rs.2 each)-Options yet to be granted under the scheme: 0.288 million (31st March 2018: 0.288 million equity shares of Rs.2 each).

**38. Investment in wholly owned foreign subsidiary**

The management is in discussion with the lenders of the wholly owned foreign subsidiary to conclude on any re-negotiation, obtain replacement financing or raise funds through any fund raising exercises or any such proposal with the lenders as on the date of this report. Considering the long-term nature of investments and in view of the efforts of the Company to turnaround the position of the operating subsidiaries and raise funds through fund raising exercise and in the absence of the fair value assessment of the investments by an external expert, the management is not in position to assess the impact on the carrying cost of the investments in the wholly owned foreign subsidiary.

**39. Previous year figures**

The Company has reclassified previous year figures to conform to this year's classification.
